Software Information Experts

Welcome to Activate your Application

This wizard will guide you to activate your Softix Software System, please follow the following steps.

Before continuing please make sure that you have installed Oracle database, Oracle Forms and Oracle Reports successfully.

To confirm this click Start menu > All Programs, the following items should be visible there.

- Oracle Enterprise Manager
- Oracle Forms 6i
- Oracle Reports 6i

If any item is missing then install that item by running the Oracle setup again or download the Oracle installation troubleshooter from our support page.

Ready to Activate:

1. Copy the "cmenu" folder to C:\ from your software package folder located in your hard drive or DVD.
2. Rename the "cmenu" folder to "menu" located on c:\ drive.
3. Run restore.frx from c:\menu\ by double clicking on it.
4. A dialog will appear click on "Select the program from a list" and press Ok.
5. Again a dialog will appear click browse give path of "ifrun60.exe" it will be located on c:\dev6i\bin if your installation is done according to Softix Installation Guide.
6. Check the option "Always use the selected program ..." and press Ok.
7. Browse and select the latest backup file from <yourSoftwareFolder>\backup\
8. Press Start, this will confirm your action click yes to continue.
9. Now make a shortcut on desktop of main.frx located in <yourSoftwareFolder>\menu\

Congratulations your Software has been activated, if you are a novice user select
